

BECOMING A VOLUNTEER

Thank you for your interest in joining our volunteer program! Volunteers are valued members of our team at the North Bay Regional Health Centre.

Becoming a volunteer involves significant time and resources from you and from the organization. For this reason, we ask that all volunteers make a long-term commitment to the program and maintain a regular volunteer schedule. **Please carefully consider if you are able to make this type of commitment.**

Volunteers are selected and placed according to the needs of the organization and the interests, skills, availability and suitability of each applicant. Due to the nature of work in our organization, there are limited volunteer opportunities on evenings and weekends.

The diagram below outlines the steps to become a volunteer - it can take a few weeks to complete the process.

Please submit your application package to the Volunteer Department (contact information below).

If you are only available during the summer, please submit your application package no later than **April 15th**.

We strive to accept as many applicants as possible, however, due to the volume of applications we receive we are not able to guarantee a placement for everyone and only those applicants selected for an interview will be contacted.

Examples of unacceptable conduct (considering the context of its occurrence) would include, but are not restricted to, the following:

- Using threatening/abusive language

NBRHC will not tolerate any violence, bullying, discrimination or harassment. In such cases refer to the Workplace Violence and Harassment Policy HS-10.

RESPONSIBILITY:

All board members, staff, physicians, volunteers, students and contractors will read and acknowledge the provisions of the Code of Conduct upon hire. All employees will reaffirm their understanding of the Code of Conduct with every Employee Development Review completed.

Unacceptable behaviour that is unaddressed, and not redirected, is more likely to continue and/or deteriorate to more destructive levels, and so can be a warning indicator, while disruptive behaviour that is addressed is more likely to stop, improve and prevent such deterioration.

Step #1: Let the person know:

It is every member of the Hospital Community's responsibility to notify another that your perception of the behaviour/action displayed is inappropriate and that you would like it to stop immediately. In the event that an individual (*the complainant*) believes that a breach of the Code of Conduct has occurred, it is the responsibility of this individual to bring the specific conduct to the attention of the person who they believe to be in breach (*the respondent*) and request that the conduct cease, or that a new understanding is agreed upon. All reports will be treated confidentially. (Please refer to the Code of Conduct Tool Kit for tools to help you)

The intent of this step is to encourage open dialogue between the complainant and the respondent direct in an attempt to clarify and resolve the complaint, and/or gain better understanding/agreement/resolve.

**There may be circumstances that prevent the complainant from discussing the incident with the respondent directly prior to talking to his or her direct supervisor. In such situations, it is recommended that Step 2 be initiated.*

Step #2: Talk with your direct Supervisor:

Following Step 1, and where there is no satisfactory understanding or resolution, (e.g. the respondent was unwilling to listen or acknowledge your concerns or behaviour continues), the Complainant is encouraged to first discuss the matter with his/her supervisor within (10) days of the circumstances occurring. The immediate supervisor shall respond verbally to the complainant within five (5) days of the discussion of the complaint. The parties involved are encouraged to attempt to devise a resolution to the complaint. Should the complaint involve one's supervisor, the report should then be referred to the next most responsible member of management. (See Step #3)

Step #3: Put it in writing:

Every attempt should be made to approach your direct Supervisor for assistance in resolving the issue. Where there is no satisfactory resolution after Step #2, or if you are uncomfortable approaching your Supervisor to assist, you can approach your union representative (if applicable), or the next responsible member of management and/or a member of the Human Resources team for assistance and support. Documentation regarding why you feel you cannot approach your Supervisor, or why you feel the matter has not been adequately resolved at Step #2, will be required at this Step to initiate further follow-up/investigation.

Every effort will be made to process your complaint in a timely and fair manner. Every claim is different and therefore agreed upon timelines and procedures will vary.

Step #4: Follow Up/Investigation:

The investigation may be conducted by a single individual or a team of individuals (the Investigation Team), and may include:

- The Supervisor/ Manager/Director and/or
- A representative of Human Resources, and/or
- A representative of Risk Management, and/or
- Professional Practice Leader, and/or
- A member of the local union (in accordance with the applicable collective agreement), and/or
- An qualified external investigator to complete the investigation

The investigation must be conducted in a confidential, timely manner and open communication will be maintained between all parties involved. The complainant and the respondent will receive a status update every two (2) weeks by the investigative lead unless otherwise mutually agreed upon. Where the complainant and respondent has not received a status update or resolution he/she may address this issue with the Chief Human Resources Officer.
