Job Description

The NBRHC Department of Emergency Medicine is looking to add to its already innovative, effective and collegial department. We see an average of 150-170 patients per day, so it's a fast paced invigorating environment. However, with 7 ER physicians scheduled per day, you become an integral part of a team while having time to give quality care and complete proper work-ups for your patients. We are a Regional Stroke Centre as well as a Level III Trauma centre, with regular SIMS, clinical updates via case reviews, and accredited grand rounds. ED physicians are funded through an Alternative Funding Agreement (AFA) with a rewarding financial structure.

As expected, applicants must be licensed (or eligible for licensure) in the Province of Ontario. The organization is an academic teaching centre affiliated with the Northern Ontario School of Medicine (NOSM), so there are various opportunities for teaching.

Locum, Part-time and Full-time positions available.
